RE-COVERABLE ART AND SIGNAGE

Wall art with a replaceable outer fabric layer for quick updating of images or signage.

- 30mm thick (class D absorber) to improve room acoustics.
- Discreet aluminium chamfered frame for that floating look.
- Print with an image or graphic of your choice or design your own art.
- High resolution dye sublimation printing: up to 1440 dpi.
- Amazing art and signage panels with acoustic benefits.

Re-coverable
art and signage

Features

Construction

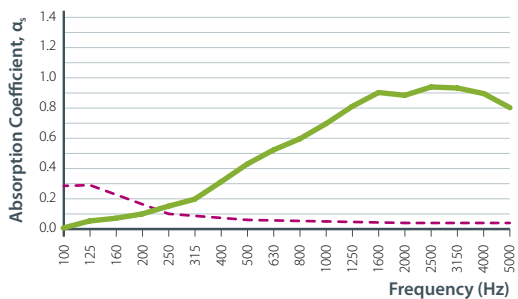

Vibe re-coverable art and signage panels comprise an internal 16mm thick absorbing material held in a 30mm thick aluminium frame. The dye sublimation printed fabric is discreetly secured into the frame with a clever strip that allows the fabric panel to be removed and replaced when required.

Acoustic performance

Sound absorption performance

Tests carried out in accordance with BS EN ISO 354.

— Vibe re-coverable art and signage panels – 30mm
- - - Typical plasterboard stud wall (12mm panelling)

	Class	α_w	NRC	SAA
Vibe re-coverable art and signage panels – 30mm	D	0.45 (M,H)	0.60	0.59

Calculated in accordance with BS EN ISO 11654.
